City of Albany Snapshot

The Snapshot provides an overview for the whole City of Albany local government area (LGA).

See the Technical Report for more details.

Land & Water

430,807	5	180	35
total hectares of LGA	major drainage lines	kilometres of coastline	conservation significant wetlands

Flora & Fauna

3,104	1,464	30	56
plant species	fauna species	threatened flora species (IWA)*	threatened fauna species (IWA)*

Vegetation

36%	~52%		
of original extent remaining	of remaining vegetation has some level of protection		
83,800	443	340	12,202
hectares of vegetation on freehold land	crown reserves managed by the City	hectares of vegetation owned by the City on freehold land	hectares of vegetation on Crown land managed by the City

*For a comprehensive list of conservation-significant flora and fauna species recorded in the City, refer to Appendix C & G of the Technical Report

7 City of Albany Local Biodiversity Strategy 2026 - 2036 (Document Number JARA2121/07/2026) Classification: OFFICIAL

Biodiversity in Focus

Albany is recognised as part of one of the world's biodiversity hotspots and supports a remarkable diversity of plants and animals, including species found nowhere else on Earth.

Albany Pitcher Plant
Cephalotus follicularis

A unique carnivorous plant found only in the south-west of Western Australia.

Albany Woollybush
Adenanthos sericeus

An iconic Albany species recognised for its soft silver foliage and striking red flowers.

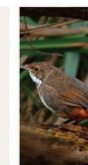

Granite Banksia
Banksia verticillata

A distinctive banksia of Albany's granite outcrops and coastal heathlands.

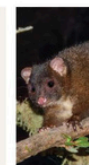

Western Ground Parrot
Pezoporus flaviventris

One of Australia's rarest birds, found in coastal heathlands of the Great Southern.

Noisy Scrub-bird
Atrichornis clamosus

One of Australia's rarest birds and a conservation success story of international significance.

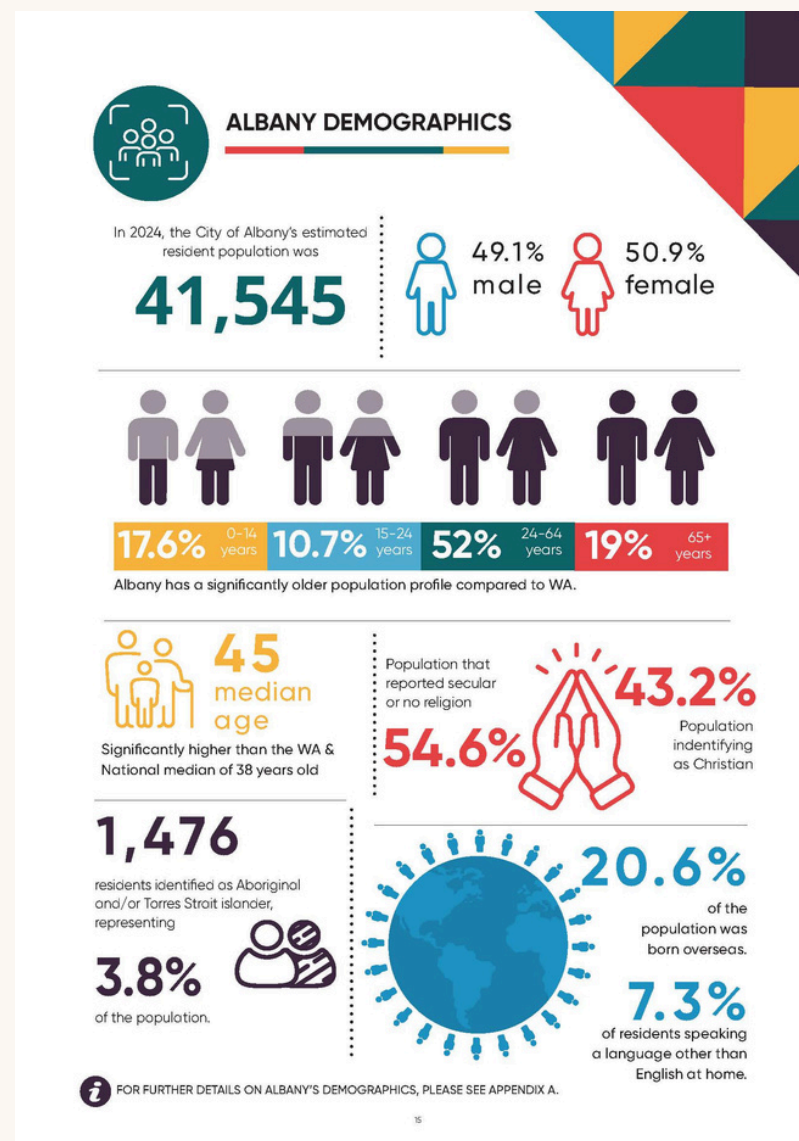

Western Ringtail Possum
Pseudocheirus occidentalis

A threatened marsupial found in Albany's forests and woodlands.

The species shown above are examples of the unique biodiversity found within the City of Albany and are not intended to represent a complete or prioritised list. For a comprehensive list of conservation-significant flora and fauna species recorded within the City, refer to Appendixes C and G of the Technical Report. Shire of Chittering Annual Report 2024 - 2025

Shire Infrastructure

Demographic Profile - Our Community

Located adjacent to the north-east boundary of the Perth Metropolitan region, Chittering has experienced significant peri-urban population growth. The population estimate for the Shire on 30th June 2023 is 6,516. Since the previous year, the population has grown by 3.46%. Population growth in Regional WA was 1.44%. The population is projected to exceed 7,000 by 2031 (WA Tomorrow Population Report, REMPLAN). The median age is 44 years, with 25% of the population under 18 years and 17% over 65. Aboriginal and Torres Strait Islanders make up 2.7% of the population. The Shire is home to a diverse community, with 37.3% of residents being migrants, notably from England, New Zealand, and South Africa. There are currently 2,402 private dwellings, with 86% owner-occupied.

		Great Southern Naangar Festival	Alison Hartman Gardens	Free for both players and spectators
		3x3 Basketball Cup	Albany Leisure & Aquatic	

SYMPOSIUM: KALYAGUL: CONNECTIONS TO MENANG COUNTRY - STORIES BEHIND THE EXHIBITION

Sunday 5 July, 1:00pm - 5:00pm
Albany Town Hall
Free event. Registrations required
albany.wa.gov.au/bookable

This half-day symposium invites the Albany community to come together with Menang Elders, knowledge-holders, researchers and museum practitioners to explore the stories, relationships and careful work that shaped the Kalyagul: Connections to Menang Country exhibition.

Drawing on collections held in Australia and the UK, the exhibition places Menang voices, cultural knowledge and connections to Boodja/Country at its centre. These collections—often described as “natural history”—hold deep knowledge about Menang Country, its plants, animals, seasons and stories. The symposium opens up how this knowledge was recognised, respected and brought forward through a collaborative process led by Menang community members.

Across the afternoon, speakers will reflect on the challenges and opportunities of working with historical collections in a decolonising way.

This symposium is an opportunity for both Aboriginal and non-Aboriginal community members to hear directly from those involved, learn about the relationships behind the exhibition, and consider how museums can better honour the knowledge, authority and ongoing custodianship of Menang people.

NAIDOC RAFFIA BRACELET MAKING

Tuesday 7 July, 10:30am - 11:30am
Albany Public Library
Free event. 5 years of age +
Registrations required - albany.wa.gov.au/bookable

Celebrate NAIDOC Week with a hands on weaving experience. Join Aboriginal Artist and Weaver Michelle Earl, and learn how to create your own colourful raffia bracelet.

This fun and creative workshop introduces children to the art of weaving while exploring Aboriginal culture and storytelling through craft.
